- **Revai Miklos High School**, Gyor, Hungary Sep. 2010 – May 2014

## EXPERIENCE

- Software engineer intern** at CTED Apr. 2016 – July. 2016
- The Center for Technology and Economic Development (CTED) is a research center in Ghana, New York and the UAE that focuses on the development of novel tech that can impact economic development in under-developed regions
  - Extended web apps built with Node.js and Socket.io
  - Developed the prototype of an SMS-based taxi application that will likely be continued by the team. The app runs on Android.
  - I was invited to their center in Africa for the summer, but I also worked with them in the UAE

- Web developer intern** at BlitzBringer June 2015 – Aug. 2015
- Blitzbringer is a startup in Frankfurt, Germany. I got a chance to develop close relationships with my colleagues and received insight into all areas of business in a startup
  - Set up company website using WordPress and created own design, layout and child theme, worked on SEO and speed optimization
  - Tested the company's mobile app in real situations, logged bugs and communicated with the development team
  - Assisted at marketing, designed flyers and helped at the shooting of their promotional movie
  - Attended regular meetings, brainstorming sessions
