**PROFILE** Enthusiastic computer science student fascinated by Data Science, Design and Economics. Creator at heart with the intention of bringing about real change. That's why he often collaborates with startups and research centers for school projects. Quickly adapts to new challenges and always sees the best in every situation.

**EDUCATION** **New York University Abu Dhabi (NYUAD), UAE** Sep. 2014 – May 2018  
Bachelor of Science in Computer Science, Major GPA: 3.94  
Minor in Economics  
Studied abroad in **Shanghai, Sydney, DC** and **NYC currently**

Revai Miklos High School, Gyor, Hungary Sep. 2010 – May 2014

**EXPERIENCE** **Information visualization design | CSLC** Oct. 2016 – Present

- Approached the Center for Sea Level Change looking for project ideas. The head of CSLC asked for help to create a visual analysis system for salinity, depth, temperature data collected by tags put on seals in fjords in Greenland using D3JS.
- The project will help scientists better understand fjords and the melting of glaciers. My prototype can be viewed on GitHub which received approval to be continued.

**Software engineer intern | CTED** Apr. 2016 – July. 2016

- CTED is a research center in Ghana, NYC and the UAE focused on the development of novel tech that impacts economic growth in poorer regions
- Extended web apps built with Node.js and Socket.io in a team of 5 people. Developed the prototype of an SMS-based taxi application that will likely be continued by the team. The app runs on Android.
- Worked for a month in their African office (Accra) and for two months in the UAE

**Web developer intern | BlitzBringer** June 2015 – Aug. 2015

- Blitzbringer is a startup in Frankfurt, Germany. Received insight into all areas of business in a startup.
- Responsible for setting up company website using WordPress, tested mobile apps and provided feedback to the developers. Also assisted with the marketing plan.
- The internship was completely in German

Participated in **hackathons** in Shanghai and Abu Dhabi  
Created a **dictionary** and **music player app** using Ionic and Java  
**Marketing intern** at NYUAD, and created ad campaign for the **Burj Khalifa**  
Web design projects including **two archives** for professors and a **news portal**  
Experimented with interactive **websites** and designed simple **games** in free time

Please go to **GABORCSAPO.COM** and **GITHUB** for more on my projects/experience!

SKILLS	(advanced)	(intermediate)	(beginner)
	JS/ HTML5/CSS3	Node.JS	Adobe CC
	Java/Android	Front-End	C/C++
	Web APIs & libraries	NLP/Python	Ionic 2/Angular 2

INTERESTS			
	Debate	Languages	Data Science
	Photography	Surfing	Travelling
