PROFILE

Enthusiastic, self-motivated Computer Science student with an organized work-ethic, fascinated by Machine Learning, Design and Economics. Creator at heart with the intention of bringing about real change. That's why he often collaborates with startups and research centers for school projects. Quickly adapts to new working environments, challenges and always sees the best in every situation.

EDUCATION

New York University Abu Dhabi (NYUAD), UAE   Sep. 2014 – May 2018
Bachelor of Science in Computer Science, GPA: 3.88
Minor in Economics
Studied abroad in Shanghai, Sydney (soon in DC and NYC)

Revai Miklos High School, Gyor, Hungary   Sep. 2010 – May 2014

EXPERIENCE

Information visualization design | CSLC   Oct. 2016 – Present
- Approached the Center for Sea Level Change looking for project ideas. The head of CSLC asked for help to create a visual analysis system for salinity, depth, temperature data collected by tags put on seals in two fjords in Greenland.
- The project will help scientists better understand fjords and the melting of glaciers

Software engineer intern | CTED   Apr. 2016 – July. 2016
- CTED is a research center in Ghana, NYC and the UAE focused on the development of novel tech that impacts economic growth in poorer regions
- Extended web apps built with Node.js and Socket.io in a team of 5 people. Developed the prototype of an SMS-based taxi application that will likely be continued by the team. The app runs on Android.
- Worked for a month in their African office (Accra) and for two months in the UAE

Web developer intern | BlitzBringer   June 2015 – Aug. 2015
- Blitzbringer is a startup in Frankfurt, Germany. Developed close relationships with my colleagues and received insight into all areas of business in a startup.
- Responsible for setting up company website using WordPress, tested mobile apps and provided feedback to the developers. Also assisted with marketing.
- The internship was completely in German
